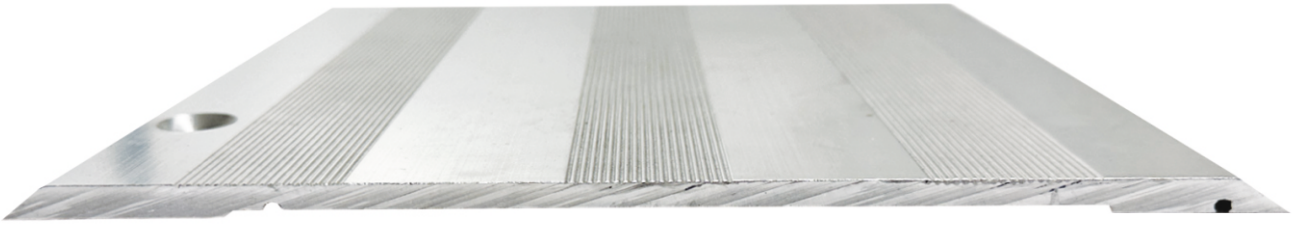
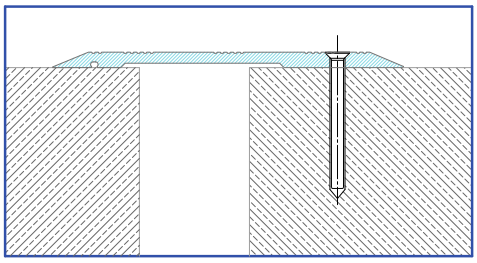
CAR PARK FLOOR PROFILES

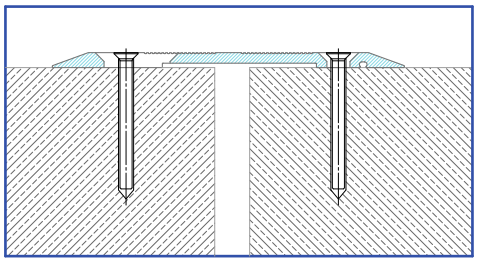
TECHNICAL DATA SHEET



Profile is designed for parking lots and inside usage. It conveys the vehicle trac eciently. Can be also use on walls. The profiles particularly suit applications where aordable solutions are required and where there are no upright deformations induced by slab curling.



CS one side holes



CS bilateral holes

Conecto CS	Visible element (mm)	Gap width (mm)	Installation height (mm)	Material type	Maximum load (kN)	Horizontal compensation (mm)
CS 120 one side holes	120	max 15	5	natural aluminium	60	± 10
CS 160 one side holes	160	max 25	7	natural aluminium	60	± 30
CS 260 one side holes	260	max 80	7	natural aluminium	45	± 65
